

# TECHNICAL SERVICE BULLETIN

NO. 71 C 2

June, 1971

SUBJECT:

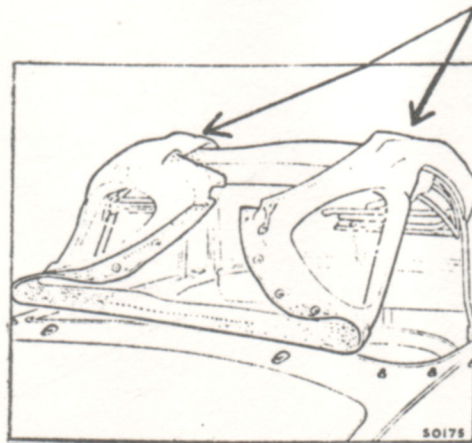

Folding Tops

MODELS:

MGB

It is extremely important that the instructions on page 16 of the Owners Manual are followed exactly. Particular attention should be paid when the rear quarter lights are folded over, that the folds are continued all the way forward to the header bar. This prevents the folding frame from cutting the canopy.

Fold between windows and continue fold forward to header bar.

No warranty claims will be honored for damage from improper operation of tops.
