DATE: 8/20/69

SUBJECT:

Cylinder Head Gasket

MODELS:

Austin America

To obviate cylinder head gasket leakage a modified head gasket part number 12G 2230 was introduced at engine number 12H 291B-H-1216 (Manual) and 12H 292B-H-4875 (Automatic). This gasket is interchangeable with the early type and should be installed whenever the cylinder head is removed for any reason.

Please note that engine prefix #'s 12H 291 and 12H 292 were introduced intermittently from chassis number 29119 and 100% from chassis number 24853.
