SUBJECT:

Distributor Cap Seals

MODELS:

Austin America

Distributor Cap Seals, Part Number BMK 1989, are available from your Distributor on a free-of-charge basis.

These Seals should be fitted to all Austin Americas which have already had Ignition Lead Kit HAC 651 installed.

As the labour costs involved in fitting this Item are far less than costs of processing warranty claims, claims for labour will not be accepted.

With winter almost upon us, we suggest that all vehicles be modified at the earliest opportunity (i.e. next routine service) in order to avoid service calls necessitated by ignition breakdown.
